

twenty·C

Centre channel loudspeaker

The **twenty·C** centre speaker is the perfect complement to the twenty series; the next generation of simply elegant, handcrafted British loudspeakers. Its aesthetics and acoustics perfectly match the signature of the twenty series. A beautifully transparent balance provides a seamless surround soundstage, with the critical dialogue of the movie presented in a tangible manner so you are fully immersed in the drama of the action.

Making the movies

PMC has earned a reputation for creating the world's finest professional loudspeakers, used at every stage of the creative process, from scoring through mixing and post-production by some of the biggest names in the movie industry.

Blockbuster movies created using PMC include:

Titanic, WALL-E, Inception, Tron, The Dark Knight, Gran Torino, Kung Fu Panda, Monsters vs Aliens, Independence Day, Hulk, The Fugitive, One Fine Day, The Sixth Sense, Dinosaur, Elf, The Passion of the Christ, Die Another Day, Planet of the Apes, Finding Nemo, Chicago, Lara Croft Tomb Raider: The Cradle of Life, Pirates of the Caribbean: At World's End, Spider-Man 3, Terminator 3, American Beauty and many more.

twenty-C in Walnut

Technically speaking

The drive units

The **twenty-C** utilises the same precision drive units as the **twenty-21** and **twenty-23** models. The twin 5½" bass/mid units, developed by PMC, have lightweight and ultra stiff natural fibre cones and provide high sensitivity and a natural balance. Teamed with the SONOLEX™ 27mm fabric dome tweeter, with its dispersion grille, the **twenty-C** displays a very wide soundstage, enabling you to enjoy the surround performance wherever you are in the room.

The cabinet

The cabinet provides a stable platform for the drive units to operate to their optimum without adding anything to the sonic signature of the speaker. Available in a choice of three veneers: Oak, Amarone, Walnut or the high gloss Diamond Black finish, the **twenty-C** matches the other speakers in the range perfectly and enhances the home environment.

The highly braced precision engineered cabinet houses PMC's proprietary Advanced Transmission Line (**ATL**) technology. This provides the characteristic transparent midrange, a supreme bass extension from a small cabinet and a fast attacking detailed bass at all levels.

Specifications

twenty·C

Freq response	45Hz – 25kHz
Sensitivity	90dB 1w 1m
Effective ATL™	1.8m 5.9ft
Impedance	6 Ohm
Drive units	LF PMC twenty series, lightweight doped 5.5"/140mm cone with cast alloy chassis HF PMC/SEAS®, 27mm twenty series, SONOLEX™ Soft dome, Ferrofluid cooled
